

SPRING HABITAT HOUSE GOING UP

The walls are in place; the roof is on; and the windows are installed in the new, energy-efficient Habitat home for Diane Jones and her family.

FPC volunteers, along with those from four other churches, are well on their way in building the four-bedroom, two-bath home in southwest Atlanta.

There are only a few openings left for volunteers to work on the house before the May 17th dedication. For more information or to volunteer, contact Bill Earnest at (404)351-8030 or at williammearnest@yahoo.com.
